

HOW TO DEPOSIT

Go to ivntclub.com/deposit

HOW IT WORKS

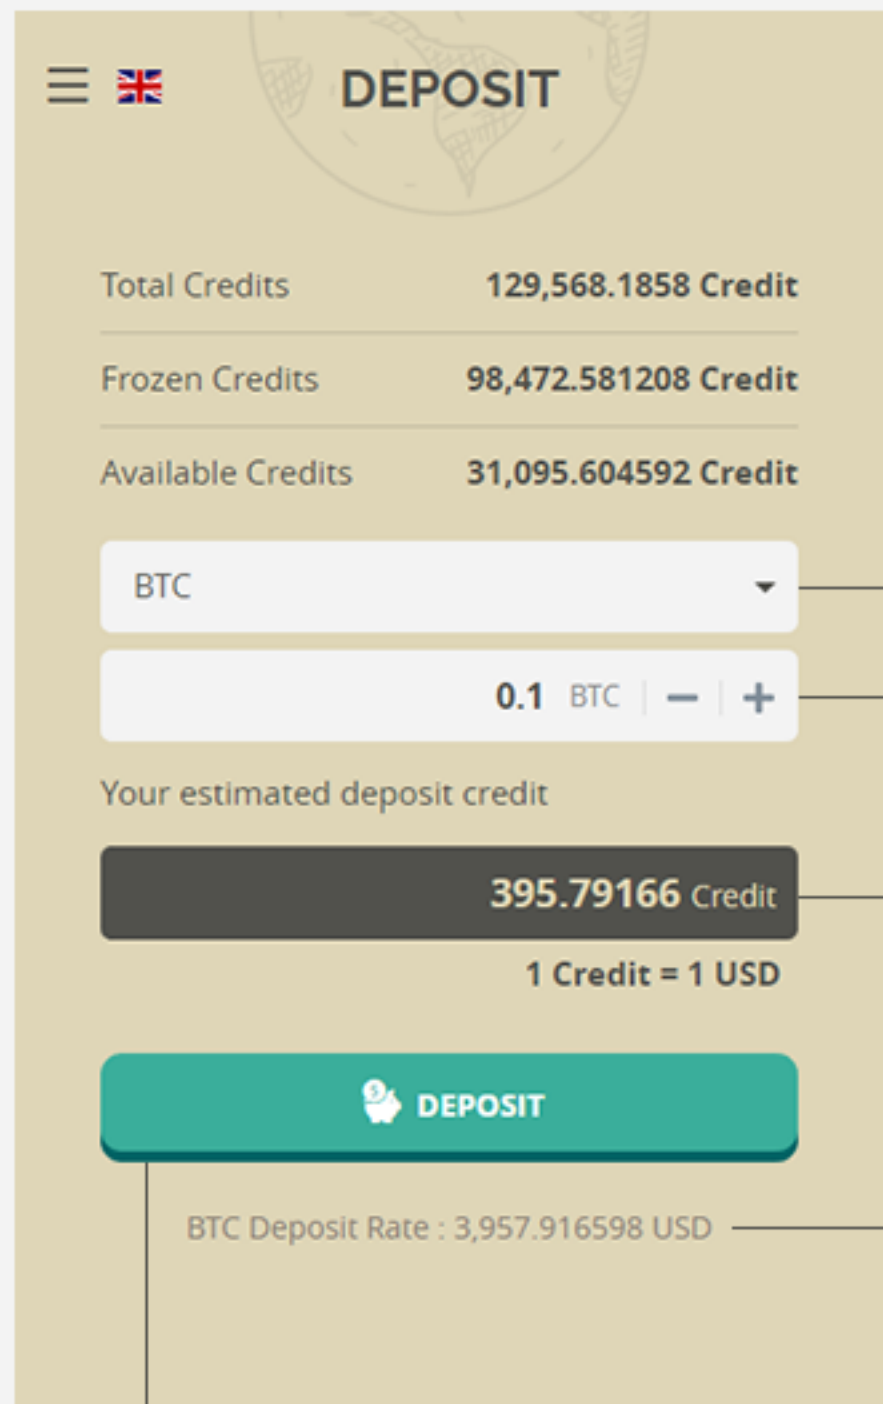

Deposit into the IVNT Club system. Each depositor will have a minimum Target (the deposit amount required to qualify for the deposit rate and guarantee the highest possible return).

When your balance reaches or exceeds the target, you can start to withdraw your balance according to the formula of 1% withdrawal amount per day.

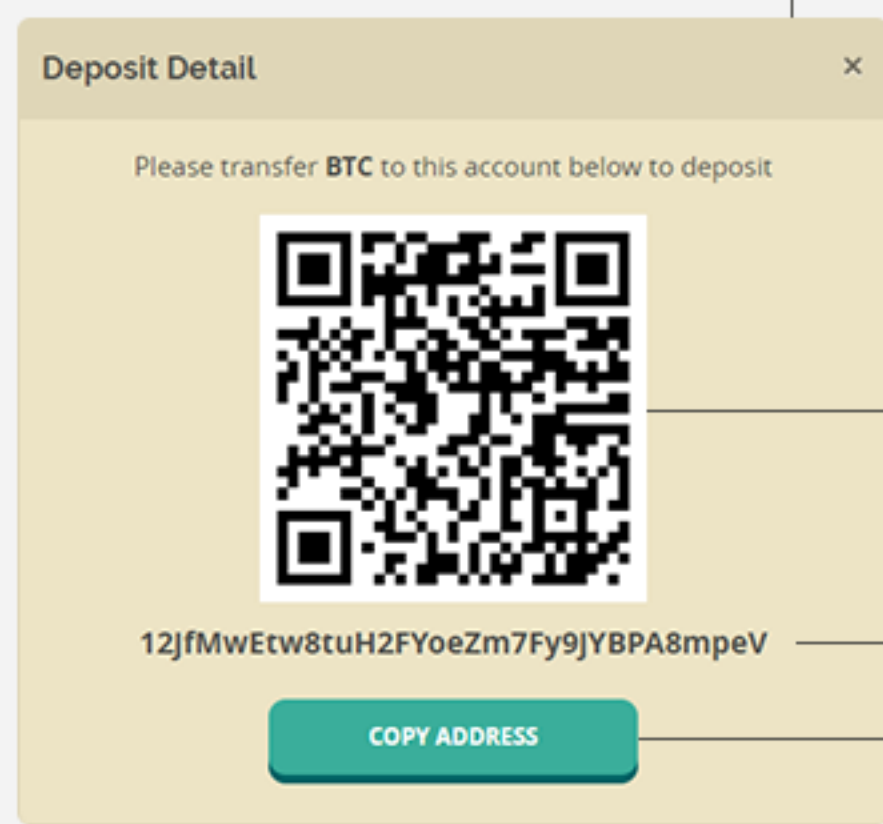

For example 10 days after making the qualifying minimum deposit into IVNT Club, you can withdraw 10% of the account value. After 20 days, you could withdraw a further 20% of the remaining account balance, etc., until you have withdrawn the full amount.

The depositor can also hold and withdraw at a future date. After 100 days of the balance can be withdrawn at any time.

For each new deposit into IVNT Club, the same procedure and benefits apply.

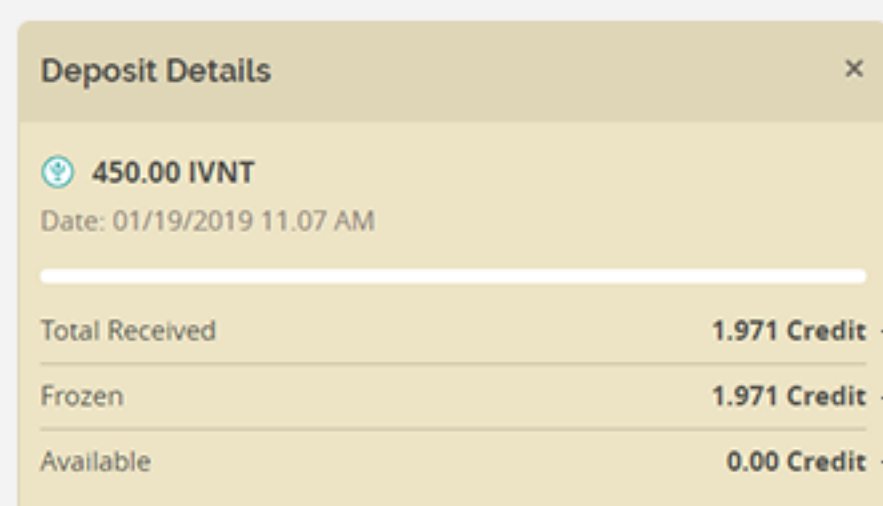

- Total Credit** is the total amount held in an IVNT Club account.
- Frozen Credits** are deposits that currently cannot be withdrawn (See Available Credits).
- Available Credits** are deposit that can be withdrawn according to the qualifying withdrawal timeline of 1% per day. 100 days after making a qualifying deposit, 100% of account funds become available for withdrawal when required
- Select coin**
- Use + and -** to enter the amount you wish to deposit.
- Your estimated deposit credit**: Deposit amount will be calculated from Deposit rate.
- BTC Deposit Rate**: 3,957.916598 USD. When making a qualifying deposit to create an IVNT Club account, the amount credited will be calculated using Deposit rate.

- When user press Deposit the system will show QR Code of User's deposit.
 - User can scan by using QR Code Reader. Scanned and keep it to deposit.
- QR Code for Deposit Address**
 - Deposit Address**
 - Copy Address** can be copied to the desired location

Date	Coin	Deposited	Available	Status
01/19/2019 11.07 AM	IVNT	450.00	Available: 0.00 Credit	Success
